III. Welsh Residency Statement of Intent (2026/2027)

The Artistic Revelation of Form

> *"My artistic process is not one of 'making,' but of witnessing. Since I was a boy in the woods, I have understood that the trees, the animals, and the stones are not silent objects; they are vessels of a higher wisdom. In my work with stone, I do not impose my will upon the material. Instead, I practice a form of spiritual micro-sculpture—revealing the multiple figures, faces, and truths that Father God already gifted to the stone."*

The Research Mission: Sovereign Repatriation

The 2026/27 residency in Gwynedd, Wales, will focus on mapping the ancestral smallholdings in Snowdonia using the Cynefin Tithe Maps and identifying the Nordan gentry transition from the Saxon strongholds of Kent and Devon into the manorial structures of North Wales.

IV. Internal Trust Deployment

- **NARA eServices:** Active request for Land Entry Case Files (Federal Folder 8847).
- **GIS Mapping:** Finalizing the digital overlay of Section 14 and Section 22 for GPS ground-truthing.
- **Stewardship:** Ongoing ecosystem restoration and digital archiving.

Executed this 6th day of May, 2026, in Morton, Mississippi.
